1. Introduction

This Policy sets out the obligations of MCP Property Services Ltd (company number 03744489) (“the **Company**”) regarding data protection and the rights of customers, employees and suppliers (“**data subjects**”) in respect of their personal data under the General Data Protection Regulation (“**GDPR**”).

GDPR defines “**personal data**” as any information relating to an identified or identifiable natural person (a data subject); an identifiable natural person is one who can be identified, directly or indirectly, in particular by reference to an identifier such as a name, an identification number, location data, an online identifier, or to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural, or social identity of that natural person.

This Policy sets out the procedures that are to be followed when dealing with personal data. The procedures and principles set out herein must be followed at all times by the Company, its employees, agents, contractors, or other parties working on behalf of the Company.

2. The Data Protection Principles

This Policy aims to ensure compliance with GDPR. GDPR sets out the following principles with which any party handling personal data must comply. All personal data must be:

- a) processed lawfully, fairly, and in a transparent manner in relation to the data subject;
- b) collected for specified, explicit, and legitimate purposes and not further processed in a manner that is incompatible with those purposes; further processing for archiving purposes in the public interest, scientific or historical research purposes or statistical purposes shall not be considered to be incompatible with the initial purposes;
- c) adequate, relevant and limited to what is necessary in relation to the purposes for which it is processed;

d) accurate and, where necessary, kept up to date; every reasonable step must be taken to ensure that personal data that is inaccurate, having regard to the purposes for which they are processed, is erased or rectified without delay;

e) kept in a form which permits identification of data subjects for no longer than is necessary for the purposes for which the personal data is processed; personal data may be stored for longer periods insofar as the personal data will be processed solely for archiving purposes in the public interest, scientific or historical research purposes or statistical purposes subject to implementation of the appropriate technical and organisational measures required by GDPR in order to safeguard the rights and freedoms of the data subject;

f) processed in a manner that ensures appropriate security of the personal data, including protection against unauthorised or unlawful processing and against accidental loss, destruction or damage, using appropriate technical or organisational measures.

3. Lawful, Fair, and Transparent Data Processing

GDPR seeks to ensure that personal data is processed lawfully, fairly, and transparently, without adversely affecting the rights of the data subject. GDPR states that processing of personal data shall be lawful if at least one of the following applies:

a) the data subject has given consent to the processing of his or her personal data for one or more specific purposes;

b) processing is necessary for the performance of a contract to which the data subject is a party or in order to take steps at the request of the data subject prior to entering into a contract;

c) processing is necessary for compliance with a legal obligation to which the controller is subject;

d) processing is necessary to protect the vital interests of the data subject or of another natural person;

e) processing is necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the controller;

f) processing is necessary for the purposes of the legitimate interests pursued by the controller or by a third party, except where such interests are overridden by the fundamental rights and freedoms of the data subject which require protection of personal data, in particular where the data subject is a child.

4. Processed for Specified, Explicit and Legitimate Purposes

The purposes for which we process personal data will be informed to data subjects at the time that their personal data is collected, where it is collected directly from them, or as soon as possible (not more than one calendar month) after collection where it is obtained from a third party.

- c) In any event, not more than one month after the time at which the Company obtains the personal data.

13. Data Subject Access

13.1 A data subject may make a subject access request (“SAR”) at any time to find out more about the personal data which the Company holds about them. The Company is normally required to respond to SARs within one month of receipt (this can be extended by up to two months in the case of complex and/or numerous requests, and in such cases the data subject shall be informed of the need for the extension).

13.2 All subject access requests received must be forwarded to the Data Protection Manager.

13.3 The Company does not charge a fee for the handling of normal SARs. d) The personal data has been processed unlawfully.

15.2 Unless the Company has reasonable grounds to refuse to erase personal data, all requests for erasure shall be complied with, and the data subject informed of the erasure, within one month of receipt of the data subject's request (this can be extended by up to two months in the case of complex requests, and in such cases the data subject shall be informed of the need for the extension).

15.3 In the event that any personal data that is to be erased in response to a data subject request has been disclosed to third parties, those parties shall be informed of the erasure (unless it is impossible or would require disproportionate effort to do so).

16.1 Data subjects may request that the Company ceases processing the personal data it holds about them. If a data subject makes such a request, the Company shall retain only the amount of personal data pertaining to that data subject that is necessary to ensure that no further processing of their personal data takes place.
